

DP072F

Air dehumidifiers for industrial processes

Many configurations

Casing in stainless steel double skin

High performance desiccant rotor

Simple maintenance

High efficiency fans with EC motor

Programmable logic controller (PLC) with integrated controls (humidity, temperature and air flow)

DP072F technical specifications

Dry air flow range : from **1500 to 5100 m³/h**

Wet air flow : **675 m³/h**

Electrical power : **20,25 kW**

Capacity diagram

Example :

T_AT = Process air temperature

T_AS = Dry air temperature

DP072F : $T_{AS} = T_e + \Delta x * 3,4 \pm 10200 / Q_v$
